VOL. 5

MONITOR, ALBERTA, FRIDAY, JULY 16

1920.

NO. 30

Local Happenings

Mr. Roy Cramer has accepted the position of foreman of Construction on the new bank building here.

Mrs. L. E. Larder and Clinton left Saturday morning last for their holidays, which they will spend at Medicine Hat, Alta.

Miss Elsie English is visiting the Misses Martin for a few days.

Messrs E. and P. Davidge, F. Connah and H. Warner took in the Kirriemuir Picnic on Thursday last. Although the day was very hot, a splendid time was had by all present. Unfortunately the tennis courts were not in good enough shape for the Tennis Tournament, so it had to be called off, only one game being played. Kirrie walloped Cherry Valley at baseball 20-8. We understand there was another game played after supper between Kirrie and Wilhemina. The Lovers-Band played a few pieces during the afternoon and for the dance in the evening.

The terrible heat experienced during the past week caused a lot of damage to the crops, especially those that were sown on stubble. The light rain that fell early Sunday morning did a little to relieve the situation, but was not enough to materially benefit the crops. In the Sounding Lake district a very heavy rainfall was experienced on Sunday morning, the moisture penetrating about 3 inches in the sand. During Friday, the thermometer registered 98 in the shade.

For The Tennis Girl

A Haverstick tennis costume consisting of plaited skirt of orange pussy willow crepe and a Tuxedo coat of deluxknit. Marjorie Gieson is the charming model.

Senator Reed Barred From Democratic Convention

U. S. Senator James A. Reed of Missouri, bitter opponent of the League of Nations, who has been barred from a seat in the Democratic Convention in San Francisco, by a vote of the National Administration leaders, who opposed him.

Joins Auto Club

Mr. F. E. Betts, assistant Secty of the Alberta Motor League and of the Dominion Auto Trails Association, was in town the early part of the week, and has arranged for a local branch of the Alberta Motor League to be formed here. He has already secured about 25 members, and it is confidently expected that the number will be increased to 75 or 100 within the next few weeks. The D. A. T. A. are doing splendid pioneer work in the blazing of trails throughout the Dominion, and Monitor is going to be materially benefited by being recognized in their Guide Book.

At The Tennis Courts

At a recent meeting of the Monitor Lawn Tennis Club, held in the G. W. V. A. Rest Room the Rev. E. Davidge was elected President of the Club, vice Mr. J. L. West who has left the district. Miss Cameron was elected Sec-Treas. pro-tem and H. A. Warner put on the executive pro-tem, till the return of Mr. G. E. Dixon. Mrs. Lucas was elected to the executive permanently.

At this meeting it was decided to prepare the second court and to stage an inter-town Tournament. Two sets of tapes were ordered and a new net and it is expected that by Saturday the two courts will be ready for play. The tournament will commence on Monday next. Members will kindly make an effort to be present at the courts on schedule time, so as to enable other players to play at the conclusion of the set games.

It was also decided that all members of intending members pay their entry fee as soon as possible. In future only paid up members will be allowed to play on the courts.

It was also unanimously agreed that the Tennis Club stage a Tennis Tournament about the first week in September, possibly on Labor Day. A booth will be erected and several other towns will enter. Further details will be announced at a later date. In the meantime, get out and practice. Remember to keep the feet behind the tape when serving.

BOARD OF TRADE AT LAST GETS RESULTS IN ROADS GOOD PROGRAM ARRANGED

Insofar as good Roads are concerned, each district in Alberta has been having its own little troubles. Monitor is no exception to the rule. For the past three months, the Monitor Board of Trade has been working endeavoring to have a little of the taxes, paid by the farmers to the Provincial Government, spent on roads through this district. After several unsuccessful attempts, they sent a delegation to Edmonton to lay the whole matter, pro and con, before the Minister of Public Works. The delegates consisted of Messrs Matheson, Poynter and Vanhorn.

The delegation were courteously received by the minister, and such skill and diplomacy did they display in arguing their case, that the interest of the minister was roused and he at once came to Monitor with his engineer, accompanied by Mr. Wilson of Veteran, our local member and the members from Stettler and Provost. Mr. McTaggart, the Road-master for the district also accompanied the party. They were met in Monitor by Messrs Larder, President of the Board of Trade Matheson and Vanhorn, and after the party had partaken of a hearty dinner at the hotel, the whole delegation started out in three cars "over the roads"

Oh, what a ride was there, my countrymen. The hearty dinner was soon jolted down, and ere long the minister hollered "enough" and passed a remark concerning his ability to ride a wagon load of wheat over the

same roads. As a result of this little jaunt, it was unanimously agreed that the roads needed fixing all right, and our friend Mr. McTaggart assured the minister that work would commence just as soon as the outfit could be moved in. The following work was passed on. The South road from town to join up with the Municipality work. Bridges to be put in on the South west trail. The North west road to be opened up and graded and the North-east road to have the grades cut and made passable with heavy loads

Great credit is due to the Monitor Board of Trade for their untiring efforts to have the trails in the district turned into roads, and a great deal of thanks is due Messrs Matheson, Poynter and Vanhorne for the very able way in which they handled a difficult situation.

Basin Lake School held their closing social on Friday of last week. Mr. Sinclair was chairman. A short programme was arranged and a pleasant time spent. It is indeed remarkable how the children of this school have made such progress. The late Mr. Teetzel taught here until the time of his last illness when the school was taken over by Miss G. Cornell.

Ted Stewart dug a hill of potatoes last week and discovered 57 spuds in the one hill. We dug one of ours too, and found 51. Apparently there is nothing wrong with the potato crop.

Miss Margaret Hansen is visiting Mr. and Mrs. A. C. Gudim for a short while.

PROVINCE OF
ALBERTA

Help Your Province

6 PER CENT
GOLD BONDS

- By Purchasing bonds of the Province of Alberta.
- While securing the highest class of investment procurable you at the same time aid your Province to provide for the building of its Public Works and Telephones in the most effective way.
- Financing by the issue of bonds within the Province results in the distribution of the interest amongst our own people.
- If you encourage this idea, you help your Province to become less dependent on outside money markets.
- Interest is payable half-yearly--1st of May and 1st of November--by coupon.
- Bonds are in denominations of \$100, \$500 and \$1,000.
- Remittances should be made by marked cheque, money order or postal note.

These Bonds may also be obtained from any recognised Bond House in the Province of Alberta

Comment on Current Events

The last week of June and the first few days of July were prolific in important changes in the political life of Canada, and in some respects these were but indicative of the unsettled state of politics generally throughout this and other countries. Union Government, which was brought into being through the efforts of Sir Robert Borden as a war administration late in 1917, having fulfilled its destiny, has passed away; Sir Robert Borden has laid down the responsibilities of the premiership, and these have been placed on the younger shoulders of Hon. Arthur Meighen, who is not only the youngest premier Canada ever had, but also the first man from west of the Great Lakes to achieve that high office. His Government will be representative of the new political organization which supersedes the Conservative and Unionist parties in Federal politics and which has been named the National Liberal and Conservative Party. In addition to Sir Robert Borden, Hon. N. W. Rowell and Hon. Martin Burrell retire from the Government; consequently the first test of the strength of the new administration with the public will come with the election of the new ministers to be chosen.

A second change of moment was the resignation of Sir Lomer Gouin from the premiership of Quebec, an office he has held for the past fifteen years, and a longer period than any of his predecessors. Sir Lomer's retirement does not mean any marked change in the Quebec Government. He is leaving political life to engage in the activities of business, commerce and finance, and is succeeded in the premiership of Quebec by one of his former cabinet colleagues, Mr. Taschereau.

Even more significant of prevailing public opinion in Canada today was the result of the Manitoba Provincial elections which has created in the oldest of the prairie provinces a situation somewhat similar to that existing in Ontario. Of the four largest groups in the next legislature, —Liberal, Farmer, Conservative and Labor,—no one commands a clear majority in the house. Followers of the Norris Government constitute the largest single group, with Labor second, Farmers third, and Conservative fourth, with few Independents in addition. The Norris Government will carry on with the support of certain of the Farmer and Independent members, while Labor will probably constitute the official opposition party.

The Manitoba elections were also noteworthy by reason of the fact that for the first time in Canada the system of Proportional Representation was applied in a Parliamentary election, the city of Winnipeg electing its ten representatives by that method. All parties seem agreed that it

was a marked success and gave general satisfaction. With ten members to be elected out of a list of 41 candidates nominated, and with 48,000 ballots cast, the new system was given the hardest test yet applied to it in any English-speaking country, and the successful outcome would seem to point to its early adoption throughout Canada.

As indicating that there has been little change in the war-time sentiment of people on the question of New Brunswick referendum is of interest. Two questions were submitted to the electorate: (1) Whether the prohibition laws should be retained, importation stopped, and a bone-dry condition created, or (2) whether the sale of wines and beer should be permitted. By a vote of three to two the people declared against the sale of wines and liquor, and by a two-to-one vote emphatically recorded their preference for absolute prohibition of the traffic in intoxicants for beverage purposes.

While the people of Canada have thus been engaged in their own political affairs, in the United States the Republican and Democratic parties have adopted their platforms for the presidential elections next November and named their candidates. A clear-cut issue on the Peace Treaty and League of Nations is now presented to the American people, and the voters will themselves decide the issue, the Republicans bitterly condemning the acts of President Wilson at the Peace conference, and the Democrats upholding the League of Nations as necessary for the future preservation of the peace of the world. While not concerned in the essentially domestic policies of the United States, Canadians will follow with keen interest the struggle for and against acceptance by the United States of a place in the League of Nations and as a co-partner with the other civilized peoples of the world in maintaining the highest international ideals.

Minard's Liniment Relieves Distemper.

Horses in Saskatchewan

(Buffalo Express)
Saskatchewan is generally associated in the mind with cold weather and wheat. It is surprising to learn, therefore, that it leads the Canadian provinces in horse population, there being a total of 1,078,000.

CONSTIPATED CHILDREN

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning their use, Mrs. Thomas A. Boutwell, Lake Baker, N.B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Overcrowding the Earth

Estimated That In 170 Years From Now Maximum Population Will Be Reached.

According to the statistics, the population of the world cannot go on indefinitely at the present rate. It has been estimated that if it does, then, we are near the end of our tether. In about 170 years from now the maximum population that the earth can support will be reached! The only country at the present time that is reasonably living within its assets of land is France, for to double her population requires 433 years. If the present rate of increase of the population of the world is maintained (supposing such a thing possible), then in 2,000 years from now the population would be twenty-five times greater than it is now.

F. Beddingfield Dead

Frank Beddingfield, from whom the Prince of Wales bought his Alberta ranch, is dead in England, according to a cable to Geo. Lane of the Bar U ranch.

Saw Possibilities In Experiment

Liverpool Dockmaster Evolved Principle of Modern Lighthouse
Sometimes during the latter part of the eighteenth century a scientific person of London made a wager that his would read a newspaper by the light of a "fartling dip" at a distance of 30 feet. To do this the scientist merely coated the inside of a shallow box with sloping pieces of looking glass so as to form a concave lens, put his fartling dip into the box and, readily deciphered the small print at the stipulated distance. The experiment was witnessed by a Liverpool dockmaster. He was a thinking man and saw great possibilities in this learned jest. He straightaway adapted the principle to lighthouse requirements and forthwith the modern reflected light with its mile of range and greatly multiplied life-saving powers sprang into being.

Don't Hawk, Blow, Sneeze, or Cough Use "Catarrhazone"

When germs attack the lining of the nose, make you sneeze and gag—when later on they infect the bronchial tubes—how can you follow them with a cough syrup?
You can't do it—that's all. Cough syrups go to the stomach—that's why they fail.

But Catarrhazone goes everywhere—gets right after the germs—kills them—heals the soreness—cures the inflammation—makes Catarrh disappear. Not difficult for Catarrhazone to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size costs \$1.00 and contains two months' treatment; smaller sizes 25c and 50c, all drugists and storekeepers.

Pulp Mill for Port Arthur

Provincial Paper Mills Will Spend a Million and a Half on Undertaking.

Port Arthur will be the scene of important developments in paper manufacture when the plans are completed of the Provincial Paper Mills, Limited, Toronto, who have just been incorporated. About \$1,500,000 is estimated to be the amount to be spent in Port Arthur. The plant, which occupies 140 acres in the city of Port Arthur, has turned out about \$2,000,000 of sulphite, which has been sold in the United States, chiefly in Wisconsin and Minnesota. It is now intended to complete the product into paper on this side, with a mill to turn out forty tons a day. With the expenditure of \$500,000 on the mill, absorbed by the new company, these productions will be increased.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Gray's worm treatment will protect the children from these distressing afflictions.

An Unvalued Site

(London Daily Chronicle)
The news that the Bank of England is to be rebuilt draws attention to a fact which has often puzzled business men, and that is that the site on which the present buildings stand has never been valued, though it is undoubtedly the most famous in the world. What is more, the balance-sheet of the bank never includes the site and the buildings as an asset, though if these were in the possession of any other company they would probably be included as worth anything up to 10,000,000 pounds. But the bank's position is so secure that it can afford to neglect even such a great asset.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few cases they cause vomiting through their action in an unclean stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear all worms from the system.

Valuable hardwood forests abound in Panama.

To Further Lignite Project

Additional Grant of \$200,000 Made to Saskatchewan Briquetting Plant.

To meet the increased cost of construction of the lignite briquetting plant an additional appropriation of \$200,000 has been made. This makes the total vote for the plant \$600,000. Of the additional vote, \$100,000 is being provided by the federal government, the governments of Saskatchewan and Manitoba dividing the other \$100,000 between them. This is the same ratio as the original vote.

The lignite utilization board has found it impossible to complete the project on the original grant of \$400,000. A recent estimate shows the total cost will be about \$600,000, exclusive of housing. In order to compare these prices with the original estimate of \$400,000, the board made a careful enquiry into the price of the present contemplated plant had it been erected in 1917, the date at which the original research council report was prepared. The result was a total estimate of \$390,000, which shows that the present designs are no more elaborate than were contemplated originally.

The Hon. Arthur Meighen agreed that the federal government would contribute another \$100,000 on condition that Manitoba and Saskatchewan would each contribute a further \$50,000. The question has been taken up by Mr. Meighen with the two provincial governments and so far as Saskatchewan is concerned, the additional appropriation will be met.

Roumania Wants Canadian Trade

Roumanian firms of paper users are turning to the United States and Canada for their supplies, according to announcements in this week's bulletin of the department of trade and commerce. Other Canadian products being sought by Roumanian firms include: Leather and leather goods, including boots and shoes, textiles, furs, fresh and canned foodstuffs, drugs and chemicals and iron.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope by curing the cause of the trouble. Kellogg has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best recommendation. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

To Keep Meal.

During hot months buy cornmeal, graham flour, or cereals in smaller quantities, then can in airtight glass jars, for insects seek dark places mostly to do their damage. If one is afraid it has been visited by insects, sift and place in a hot oven in shallow pans and heat almost to the scorching point, then cool before bottling, to insure it from getting musty. If cornmeal does scorch a trifle it gives a pleasant parched flavor to corn bread or mush.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that restore them to the blessings of good health. Mrs. F. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and when I felt like a different person, I am never without them in the house and recommend them to all who suffer from their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The F. Milburn Co., Limited, Toronto, Ont.

Maytag Multi-Motor Washer

THERE is a Maytag Washing Machine for every need—Electric, Hand, Multi-Motor, and Power Driven. In this issue we are going to call special attention to the Maytag Multi-Motor Washer, the machine with a built-in half-horse, two cycle, air cooled engine, and equipped with the Swinging, Reversible Wringer. This is, without a question the best washing machine in the world for use on the farm or in towns where no electricity is to be had.

We have either a hardware dealer, or an Implement or General Store firm selling our Washers in nearly every town in Western Canada. Look one up in your home town at once and see just what this machine is. If you do not find one, drop us a card, giving us the name of a dealer you would like to have us write to and we will send you a copy of our Free Household Manual. It contains hundreds of valuable suggestions about washing and handling fabrics and also describes the machine.

One of the most delightful features of the Maytag Multi-Motor Washer is ease of operation. Women everywhere agree that it is perfectly simple. Put hot water and soap into the generous cypress wood tub. Fill it with soiled clothes. Then give the special starting wheel a flip with your foot. That is all. With a business-like "put-put-put," the little Multi-Motor goes about its work and chews—all the wash-day worry from your face.

Many, many homes not having electricity are today enjoying this great convenience perfected in this famous Maytag factories.

It is the only washing machine in the world with a gasoline motor built right into the machine.

Handles heavy or light pieces perfectly. Does a thorough job of cleaning in a short time.

Does away with all the hard work—saves a lot of time—and actually protects the clothes.

Has a power wringer. You merely feed the clothes through it. And when not used for washing you can hitch your churn, separate or clothes—all the wash-day worry from your face.

Why make the family washing a weekly ordeal—when the cost and operating expense of the Maytag is so reasonable. Go to your local Maytag dealer and see this machine.

CHAPTER VI.

A big man, past middle age, and seated astride a small white horse came picking his way between the huge beech and maple trees, down through the quiet morning of the woods. He had shaggy red brows, and a big mouth that drooped at the corners. The little eyes, flashing sideways in search of the blaze on the trees, were sharp and calculating. Where the ridge sloped to the valley he reigned up.

"Must be somewhere about here," he mused aloud. "Don't know how I can miss seeing McTavish if he happens to be outside—land knows he's big enough to see—he! who are you?"

Something animated in the shape of a boy had stirred from a log directly in the path. Leaping out it stood before the rider—a boy with long yellow curls and big brown eyes. The old white horse shied, and the boy rocked backwards and forwards on the path, voicing low, plaintive sounds. As the rider watched him a small animal crept from the thicket and climbed upon the lad's shoulder. The horse reared, and the boy, lifting his brown arms, began to wave them to and fro. At the same time he broke into a wild, tuneless chant, the words of which were unintelligible to the wondering observer. It was a shrill, weird note, fluted and varying like the call of a panther. Suddenly boy and animal vanished as though the Wild had reached forward and gathered them into its arms.

"Heavens!" shuddered the man, and struck the horse sharply with his spurs. Where the trail curved off abruptly to the valley he reined up once more and turning about, looked back.

"Well I'll be shot!" he soliloquized. "No matter where you find the Creator's handiwork and beauty you'll find his imperfections too. Ugh! how those big eyes did probe me! It's enough to make a saint shiver, let alone a chap who has climbed up as I have—not caring who I've trampled on."

He shivered again, and felt in his pocket for his pipe. His hand brought forth a yellow wallet. A hard smile warped his mouth as he opened the wallet and drew out a small photograph. It was the likeness of a young woman with sweet face and great eyes. He tapped the likeness and a lock of brown hair leaped out like a snake and twined about his finger. He brushed it back with a shudder, and, snapping the case, put it back in his pocket.

"I'll find that big McTavish and get this deal closed," he mused as he rode along.

The horse stumbled and a grouse whizzed along the trail, passing close to the man's head, with a thundering nerve-racking sound. He sat erect and sank his spurs into the old gray's heaving flank.

"Get epp, you lazy old bag of bones," he commanded. "Let's find that big innocent and get hold of his deed. We'll give him a dollar or so to see us back along that lonesome trail. I wouldn't go back along that spooky path for all of old Hallibut's money. I've seen enough snakes and wolves and bears since two o'clock this morning to last me a lifetime. And that last animal—that crazy boy!—ugh!"

He slashed the old mare into a faster walk and sat huddled up and pondering until a twist in the path brought an open glade into view. The buzz of a saw and the pant of a weary

Wonderful Strength For Weak Stomachs

Everyone Talking About the Cures Made By Dr. Hamilton's Pills

There are despairing men and women by the thousands in this city, whose stomachs keep them in constant misery that can be quickly restored to vigorous health by Dr. Hamilton's Pills.

We know of no other medicine that possesses such power to kindle into new life the exhausted energies of chronic stomach sufferers.

There is an extraordinary power in Dr. Hamilton's Pills that searches out the weak spots, that braces up the delicate glands and complex workings of the stomach and bowels. There are invigorating, stimulating tonic ingredients in Dr. Hamilton's Pills which are derived from powerful juices taken from rare herbs and roots, and these are scientifically combined with other medical products so as to assist in a harmonious and proper working of the entire system.

The ingredients of Dr. Hamilton's Pills, coming from the great storehouse of Mother Nature herself, can be relied upon to be harmless. Guaranteed results follow to all those who use Dr. Hamilton's Pills for Stomach Weakness, Gas, Sourness, Headache, Bilioussness or Constipation.

Seekers of the better health can not do better than invest 25c. in this health-bringing family medicine.

engine came to his ears like welcome music.

"Totherside," he chuckled. "Let's see, Bushwhackers' Place lies just across from it. But there's the creek. Guess I'll have to ride down to the narrows."

Finally, with much grumbling, he reached the farther side of the creek, and, pulling in his horse, he gazed about him.

"Ha, look at that for timber!" he exclaimed. "And to think that Smythe and I will have control—"

He did not finish the sentence aloud but sat nodding his head up and down. Very soon he drew up before the long log-house. Big McTavish stepped out and pointed to a log-building in a grove of butternuts.

"Put your horse in there," he invited. "I will, and more," agreed the arrival. "I'll enjoy a bite of bread and a slice of dried venison or anything else your larder affords. I'm hungry as old Nick."

"You're welcome to the best we have," replied McTavish. "You're Mr. Watson, I suppose. Am I right?"

"Watson I am—Robert W. O. Watson, that's me. I'm pretty well known through these parts; that is to say, better maybe a little east of here. This place is kind of off the map, you know. Just give the lazy skate anything that's handy," he growled, referring to the patient steed that stood with drooping head and sanctimonious air, "but you needn't be in any hurry to feed her. She's Smythe's horse and used to waiting."

"I always see that my oxen get their meals same as I do," said big McTavish. "I wouldn't feel just like eatin' unless they had their fodder, too. We'll step inside and I'll have Gloss fix you up a meal. She's down at the spring now gettin' the cream ready for the churnin', but she'll be back direct."

As they crossed from the stable to a small form flitted by them and vanished among the trees. Watson gasped and he chuckled McTavish's arm.

"That's him," he cried, "that's the crazy boy I met a couple of miles away. How did he get here so soon do you suppose?"

"Oh that's Daft Dave," smiled McTavish. "Nobody knows exactly when he'll turn up. He runs like a deer and is as shy as the wild things he plays among."

"Plays among," repeated the other. He followed McTavish into the house and sat down heavily on a stool. "What do you mean by 'plays among'?"

"I mean that he moves among the wild things and they are not scared of him same as they are of you or me or anybody else. They do say that he can fondle the cubs of bears, and wolf-kittens. I've seen him playin' with a big snake myself—not a poisonous one, of course. Seems as though Dave can pick out the things that are harmful quick enough. No-

body pays any attention to him much. The Bushwhackers' Place, but leaves him to himself, knowin' that God'll protect the soul He didn't give over-much reasonin' power to."

"Humph," grunted the other, "I see you're a pious man, McTavish—pious, God-fearing and honest. Good plan to work along that line. Had a good bringing up myself. Mother's prayers, early teaching, and that sort of thing have a lot to do with making a big man. My mother is largely—I should say was largely—responsible for my success. She's dead now, poor old lady. Of course, a fellow who climbs has a right to, some of the credit himself, I suppose. Made up your mind, I can see, to swap this forsaken wilderness for a piece of cultivated land," he said, abruptly opening the subject nearest his heart and fixing on the big man his little pig-eyes.

(To be continued.)

New Bankruptcy Act.

The Bankruptcy Act, passed at the first session of 1919, came into force on the 1st of July, under the provision of a proclamation issued in January last. Some amendments, which consideration of the Act during the last year showed to be necessary, were made at the session just prorogued. The rules, which contain very important provisions respecting the carrying out of the Act, have recently been passed by the Governor-General-in-Council.

No Alimony—Just a Separation

Peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corns with Putnam's Corn Extractor. Acts like magic—don't use any but "Putnam's"—it's the best, 25c. at all dealers.

The Married Teacher

No Reason For Prejudice Against Employment of Married Women

It should have been needless, but it was probably wise, for the Carnegie Foundation, by the report of a distinguished committee of educators, to denounce in strong terms the remaining prejudice against the employment of married women as teachers.

Says the committee: "There is probably no work in which marriage and a normal home life could contribute a qualification more essential than they could to teaching." The woman teacher is too often a "detached public servant in a class apart. If married and a householder having children, she becomes a vitally interested and respected factor in society."

A part of the old prejudice against married teachers took root in the silly cry: "Let them stay at home, and give the girls a chance!" Such sacrifice of the skilled veteran to the beginner was unwise at any time. It is simply ridiculous now, when hundreds of thousands of children have no teachers at all, and other hundreds of thousands but inefficient substitutes. Yet in how many cities as in New York, are there traces of the old feeling even in the formal rules of Boards of Education.—New York World.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California Syrup of Figs" only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. You must say "California."

The Value of Trees

One Square Yard of Leaf Surface Purifies Great Amount of Air

It has been calculated that a single tree is able through its leaves to purify the air from the carbonic acid arising from the respiration of a considerable number of men, perhaps a dozen, or even more. The volume of carbonic acid exhaled by a human being in the course of twenty-four hours is put at about 100 gallons, but scientists estimate that a single square yard of leaf surface, counting both the upper and the under sides of the leaves, can, under favorable circumstances, decompose at least a gallon of carbonic acid in a day. One, then, would suffice to keep the air pure for one man, but the leaves of a tree of moderate size present a surface of many hundred square yards. All other forms of vegetable life act similarly in abstracting the noxious carbonic acid from the atmosphere.

Every time a man fails to make good he invents a new secret.

Married men imagine that heaven is a place where there is no house keeping.

Cuticura Ointment Is So Good For The Skin

For eczemas, rashes, pimples, irritations, itching, chafings and dandruff on scalp, as well as for cuts, wounds, bruises and bites and stings of insects, Cuticura Ointment is truly wonderful. It is so soothing and healing, especially when assisted by Cuticura Soap. First bathe the affected parts with Cuticura Soap and hot water. Dry gently and anoint with Cuticura Ointment. This treatment is best on rising and retiring. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion, Canadian Depot: Lyons, Limited, St. Paul St., Montreal. Cuticura Soap shaves without nugs.

Seal in all the Flavor

IMPERIAL Parowax—seals in all the natural flavors of fresh fruit into your preserves. The safe and sanitary way to preserve fruits, jams, pickles or vegetables. Saves time, labor and money.

The Parowax way is the easy way. Just pour the melted wax over your cooled preserves and it solidifies into a clean, air-tight seal—dust-proof and moisture-proof.

IMPERIAL
parowax

—a pure refined white wax, odorless, tasteless, colorless, absolutely sanitary—no chemicals or acids.

Placed in your wash-boiler, Imperial Parowax loosens the dirt, bleaches the clothes and removes the greasy spots that otherwise require so much rubbing. Rubbed over your iron, and mixed with your starch, it gives that finished lustre to ironing that is so much desired. Imperial Parowax, a household necessity.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Rheumatism, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Bayer, a subsidiary of Bayer, Ltd., which is well known that Aspirin means Bayer Manufacture, to protect the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Your Granulated Eyelids, Eyes
inflamed by exposure to Sun, Heat and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggists or by mail 60c per bottle. For Book at the Eye Free write Murine Eye Remedy Co., Chicago.

PRAIRIE SOIL IN DANGER OF LOSING FERTILITY

EXPERT ISSUES A WARNING

Present Methods of "Mining" Soil
Will Soon Lead West to
Disaster.

Winnipeg. — Warning against the "mining" of Canadian prairie lands by "get-rich-quick" settlers who take abundant crops for a few years without refertilization of the ground, was sounded at the conference here of the commission on conservation of soil.

"The fate of this nation depends chiefly on the fertility of its soil," declared Prof. Hanson, "and our soils are rapidly losing their basic strength in organic matter and nitrogen. We must seek immediately to correct this."

"One of the problems which confronts us is drifting lands, due to lack of soil fibre. Land drifting is causing as much loss in some districts in the west as rust and insects."

He outlined the results of the preliminary experiments and tests being made in Manitoba to determine proper methods to prevent drifting. "While this work was far from completed, the results of the work already done," Prof. Hanson said, "led him to believe that the bromo grass was the easiest method of returning the fibre to the soil."

"Farming under irrigation has been practiced in all parts of Canada and the United States profitably and should be encouraged," he said. "Carelessness in cultural methods was asserted to be undoubtedly the greatest existing cause to agriculture in Canada," said Dr. J. H. Grisdale, deputy minister of agriculture.

In his analysis of conditions of the Canadian prairies, Dr. Grisdale stated the causes for the gradually decreasing yield in bushels per acre from the cereal crops would appear to be: Prevalence of weeds, lack of fibre in soil, poor moisture conservation and poor cultural methods employed by the farmers.

Among the remedies suggested were the introduction of certain hard or cultivated crops in some parts and quick maturing crops in other districts, together with better cultural methods to aid in weed control.

Want Salary Boost

Postmasters to Work for Short
Hours and More Pay.

Winnipeg. — Shorter hours, increased salaries and time and a half pay for overtime, were resolved upon as the coming year's objectives by the Canadian Postmasters' Association at the concluding session of their convention here. Other resolutions adopted include a request for participation in the civil service bonuses, and a demand that special consideration be given the pay basis of postal officials at customs ports and to officials on night shifts transferring mails from trains.

Affiliation of the association with the railway postal clerks, city postal clerks and letter carriers' associations was recommended. All of the officers were re-elected.

Riot at Trieste

Trieste. — Hotels and stores belonging to Jugo-Slavs were sacked and burned in a wild anti-Slav demonstration here Tuesday. Scores of persons were injured and property destruction is continuing, bombs and inflammables being used by the elements engaged in the disorder.

Alberta Coal for East.

Windsor, Ont. — Acting on the advice of the fuel controller, the city council yesterday placed orders with mine operators in Alberta for large supplies of coal to be shipped immediately. Information gathered here shows that this coal can now be transported here as cheaply as coal from the United States.

Opium in Egg Case

Mounted Police Discover Avenue
By Which Drug Was Being
Shipped to West.

Ottawa. — The accidental discovery at Papineauville, Que., a few days ago by the Canadian express authorities of a quantity of opium which was consigned to Calgary has furnished the Canadian mounted police with the avenue by which they believe quantities of this drug have been shipped to the west during the past few months. For some time past a Chinese restaurant keeper at Papineauville has been in the habit of consigning one, two or three cases of eggs at a time to a fellow celestial at Calgary. There had been no suspicion attached to the shipments until one day last week when one of the cases of eggs forming part of a shipment, was found to be leaking. The express company officials reported the broken case and when examined the case was found to contain opium.

In the meantime, the consignor apparently got wind that the jig was up for he has disappeared. The investigation is going on and the consignor is also being sought.

Meighen Cabinet Complete

Ministers Have Been Sworn In
With Exception of Hon. S. F.
Tolmie.

Ottawa. — With the formal swearing in of Hon. P. E. Blondin, as postmaster-general, the ministry of Hon. Arthur Meighen is now completed, with the exception of Hon. S. F. Tolmie, who will be sworn in by the clerk of the privy council on his return to Ottawa, as minister of agriculture. He is at present in Saskatchewan.

Hon. P. E. Blondin takes the same position that he held in the cabinet under the government of Sir Robert Borden.

Allies Must be United

Millerand Says That Accord is the
Thing that Will Count.

Spa, Belgium. — Premier Millerand, in an interview with correspondents, declared that the financial conference will be held July 23, as scheduled. Speaking with deliberation, he said that the allied governments had maintained that unity which "is more important than the German attitude." He went on:

"If the allies are in accord, Germany will do what we want. If they are not in accord we cannot make Germany respect the treaty. My impression is that the Germans have a pretty good idea that we have a definite plan, and hope to follow it."

By-Elections Coming.

Ottawa. — There is still no announcement as to when the necessary two by-elections in the maritime provinces will be held, but the forms necessary under the new Franchise Act are being got into shape for whenever the contests do take place. It is expected to take some time yet before everything is in readiness for taking the vote in any of the ridings open.

Climbed All the Way.

St. John, N.B. — Hadley McKinnon, for many years business manager of the St. John Standard, today purchased the entire interests of that newspaper.

Mr. McKinnon has occupied every position on the paper, having started in as printers' devil.

A Baseless Charge.

Vancouver, B.C. — W. H. Armstrong, for three years director of coal operations for Alberta and southern British Columbia, gave a denial to the charge frequently made by leaders of the One Big Union movement that the Dominion government was forcing miners to enter a foreign organization.

Ex-Empress' Estate

London. — The estate of the late Empress Eugenie is valued at considerably more than £2,000,000, according to the Daily Mail. Some of the jewels of curious design are valued at almost priceless.

MIXED FARMING IS ADVOCATED BY HON. TOLMIE

MIXED STANDARD PAYS BEST

Agriculture Minister Has Great
Faith in the Future of the
West.

Saskatoon. — "It is the duty of the Dominion and provincial department of agriculture to aid the development of mixed farming in all parts of Canada," was a statement made by Hon. S. F. Tolmie, minister of agriculture, when officially opening the Saskatoon exhibition. "It behoves us to develop our farming on the mixed standard rather than on that of any particular line. Great Britain is an example of what can be done by a nation when it determines to develop its agricultural interests in more than one single way."

The minister then referred to the growth in stock breeding with the British Isles, and showed what Great Britain had done for the people. "Our government takes a great interest in the development of agricultural exhibitions, believing that they render an equal benefit to rural and urban districts alike. They not only stir the ambitions of the farmers and create competition between them, but they also bind together farm and city. This is the main important factor."

Referring to the western provinces, Dr. Tolmie said he had a great belief in their future, and he thought that there was room enough for all industries.

Want Board Reappointed

Canadian Council of Agriculture
Decides to Take No Further Action
in Political Organization.

Winnipeg. — The Canadian council of agriculture concluded the business of its annual meeting by deciding after long discussion, to take no further action towards political organization than that provided for last January by which organization is to be carried out on a provincial plan.

The principal subject discussed was whether there should be a central coordinating committee to take charge of a political platform.

A formal resolution was passed requesting the federal government to immediately reappoint the existing Canadian wheat board for the purpose of marketing the wheat crop of 1920.

J. R. Howard, president of the American Farmers' Bureau, addressed the council on the object of the co-operative marketing program of this organization. He said they aimed to eliminate the brokers. He invited the council to send representatives to a conference to be held in Chicago, on July 23 and 24, the object of which, he said, was to make the mid-west states a power on the Chicago board of wheat marketing.

An application has been received from the United Farmers of Nova Scotia for membership, so that now the council is composed of representatives of the farming organizations of Alberta, Saskatchewan, Manitoba, Ontario, New Brunswick and Nova Scotia.

The Fighting Irish

Sinn Fein and Unionists Stage
Battle Near Belfast.

Belfast. — About 2,000 Sinn Fein and Unionists had a fight in Lurgan over the capture of a man who is alleged to have participated in a recent raid on a mansion near Lurgan. Many persons were wounded in the fighting. A party of troops from Belfast arrived in the town and removed the man from Lurgan.

The trouble had its origin in a demand by the Sinn Fein for the release of the man which the Unionists opposed.

Lithuania Signs Peace.

London. — Peace between Lithuania and Soviet Russia has been signed in Moscow, according to a wireless message from Moscow.

Wheat Stores Must Be Reported

Canadian Wheat Board Demands
Return From all Licensees.

Winnipeg. — A new regulation, No. 143, of the Canadian wheat board, orders that all licensees of the board other than milling licensees must file with the board sworn statements of their stocks of wheat by midnight July 31.

The regulation also provides that licensees must make delivery to the board of all wheat purchased by them as licensees of the board on or before August 15, in store at public terminal elevators located at Fort William or Port Arthur, and on production of the proper documents of title, the board will pay, or cause to be paid, the cash payment fixed by other regulations of the board.

Find Amber Deposit

Prospector Reports a Rich Discovery
in Manitoba.

The Pas, Man. — With a gunny sack full of pure amber, Jack Murray, former editor of the Canadian Mining Journal, has returned from Cedar Lake, 80 miles southwest of here, where he reports a plentiful supply of amber is scattered about the sand and the muck on the borders of the lake. He states that a canoe could be filled with it in less than an hour. The presence of amber at that place has been known for several years and until Murray examined it for New York and Toronto interests its value was unknown.

Col. J. B. Miller, of the Parry Sound Lumber Company, and Major Craig, of Toronto, have left here for the amber fields.

MAY PROHIBIT COAL EXPORT FROM CANADA

STATES WILL BE EXCEPTED

Conservation of Fuel Supply in
View of the Almost Certain
Shortage Next Winter.

Ottawa. — It is understood that as the first step towards conservation of the fuel supply, in view of an almost certain shortage next winter, the railway board will, in the near future, issue an order prohibiting the export of Canadian coal, excepting to the United States and Newfoundland.

It is also understood that the order will prohibit the bunkering of ocean going vessels at Montreal with American coal. This practice, it is stated, has resulted in the serious depletion of stocks of American coal brought to Canada. After the issuance of the order, it will be necessary for vessels to bunker with coal which is the product of Canadian mines.

At a conference of the members of the railway board, the coal situation was given preliminary consideration and it is anticipated that measures other than these will be evoked to conserve the fuel supply. Seen after the conference, Chairman Carvell said he had nothing further to announce at present.

Winnipeg. — Gordon Bray, three-year-old son of R. E. Bray, one of the leaders in last year's Winnipeg strike and now serving a jail term, was burned to death here while playing with matches.

News of the Provinces

MANITOBA

Winnipeg Man. — Col. W. G. Barker, V.C., the famous Canadian ace, was in the city recently arranging for the disposal of twenty-five aeroplanes for the United States and Canada. The Bishop-Barker Company is commencing a week-end service from Toronto to Muskoka Lakes, and he predicted an aerial service between the Queen City and Winnipeg within the next five years.

Winnipeg, Man. — Flax fibre, grown and manufactured in Manitoba by the Netherlands Canadian Flax Co., brought one thousand eight hundred dollars per ton on the open market in Belgium. This was manufactured in the Beauséjour plant, and brought ninety cents per pound.

Brandon, Man. — J. M. Lohr, a Minnesota farmer, has purchased 7,200 acres of land near Gunton, and is breaking with a view to seeding with flax next year. In addition, he has rented five sections near Sperling, Man., which are seeded to flax this year.

SASKATCHEWAN

Regina, Sask. — Latest report of crop conditions in Saskatchewan issued by the Provincial Department of Agriculture, is said to be the most favorable report ever issued by the Province. It comprises reports from 57 points, representative of the whole province, every reporting point testifying to the healthy state of the crop.

Saskatoon, Sask. — Milk producers patronizing provincial creameries now total 26,300, as against 19,700 twelve months ago. These figures only include shippers to the large plants submitting reports to the Government.

Moose Jaw, Sask. — Although in operation only four and a half months, the Southern Saskatchewan Stockyards have proved a successful undertaking. During this period, a total of 486 cars have been handled, comprising 29,000 head of livestock. The yards at the present time are capable of accommodating 3,000 head of cattle, and extensions of considerable dimensions are already planned.

ALBERTA

Calgary, Alta. — Further prospects for oil development in Western Canada are announced by the western superintendent of the Imperial Oil Company. In addition to the several wells the company are sinking in various parts of Alberta, a new prospect has been opened at Consul, Sask. The well at Caesar, Alta., is down about 1,400 feet, and progress is being made west of Nanton. In the far north, drilling is proceeding on Great Slave Lake and the McKenzie River.

Calgary, Alta. — The assistant manager of the Canadian Co-operative Wool Growers, states that Alberta will sell co-operatively a million and a half pounds of wool this year, or a quarter of the total Dominion sales.

Lethbridge, Alta. — The Dominion Government is ready to aid in the financing of the Lethbridge northern irrigation project. Strong resolutions have been given to the Provincial and Federal Governments by the Boards of Trade and farmers' organizations in the south country urging the two Governments to co-operate in financing the construction of the project until such time as the bonds can be sold.

BRITISH COLUMBIA

Victoria, B.C. — E. S. Oliver, a chemist who has been investigating processes for the extraction of turpentine from the Douglas Fir, claims to have perfected a process. He has obtained a number of resin leases from the B.C. government and intends to commence operations at once.

Cranbrook, B.C. — It is reported that the Consolidated Mining and Smelting Company will reopen the St. Eugene mine at Moyie. This mine has produced over 5,000,000 ounces of silver and 229,000,000 lbs. of lead, valued at more than \$10,000,000.

Kamloops, B.C. — J. W. French, a big-game hunter from eastern Canada, reached here with a record bag, comprising nine grizzlies and three black bears, after a six weeks' hunt north of Revelstoke and Shuswap.

THE KENNEDY DRUG COMPANY

The Monitor Citizens

Band Is Still Alive.

We understand that New Brigen engaged the Loverna Band (?) to play at their Picnic last Wednesday. This was rather an unfortunate move on their part, because the Monitor Citizens Band had decided to donate their services for the whole afternoon free of charge as a token of appreciation for past engagements.

We want all our readers to remember that Monitor has a Band, and a darn good one at that. As a matter of fact, after hearing the Loverna aggregation play "Bubbles" at Kirriemuir last week, we feel equal to combat Sousa's Band. However, to keep to the point, we wish to urge on all local societies that that the Monitor Band is entirely self-supporting. It is doing valiant service in keeping Monitor on the Map. We do not import players at a salary for engagements, and as such, the Band is worthy of the support of all and sundry in the district. New music has to be bought. Instruments bought and repaired, and the charges of the Band for the different engagements are very reasonable. Patronise home industries folks. The Band needs your appreciation as well as your financial support—are you giving it them?

Local Happenings
 D. E. Graver returned Tuesday
 from Saskatoon, where he
 has been visiting the Fair for
 the past 8 days.
 Mr. and Mrs. Rudolph, of
 Compeer, were visiting Mr. and
 Mrs. F. M. Tarr over Sunday.
 At the regular meeting of the
 Village Council held last Monday,
 tenders were let to M. Earl
 for the grading and ditching of
 Main St., and to D. E. Graver
 for the painting of the Council
 chamber and Jail. It was also
 decided to accept the proposition
 as put forward by the
 Dominion Auto Trails Association,
 regarding the blazing of
 trails in and out of Monitor.
 This action will be of wonderful
 benefit to all the citizens of
 Monitor and especially those
 who are in the district.

Sgt. Forbes of the R. N. W.
 M. P., stationed at Battleford,
 popularly known as "Shooter"
 Forbes met with a fatal accident
 last Saturday by being
 thrown from his horse against
 a telephone pole. Death was
 almost instantaneous. Several
 Monitor boys met "Shooter" in
 Compeer at the beginning of
 the year Sgt. Forbes was at one
 time stationed with the editor
 at Wilkie Sask, and was a personal
 friend.
